INDEX TO VOLUME XI

The asterisk (*) preceding the page number indicates an original article in this Journal. The letter T preceding the page number indicates a paper reported in the Transactions of the American Association of Neuropathologists. The letter D preceding the page number indicates a discussion of an original article or some other item published in this Journal. Subject entries are made for all articles. Author entries are made for original articles and Society Transactions.

ABSORPTION and diffusion within the brain, an experimental study with Prussian blue and India ink in rabbits and cats, *53
Acute plaques in multiple sclerosis. Their pathogenetic significance, and the role of the spirochetes as etiological factor, *342
Adams, R. D., T91; D93
Adenoma, chromophobe, of the pituitary, multiple epidermoid cysts of the leptomeninges associated with, *329
Allergic encephalomyelitis during and following cortone acetate treatment, histopathologic aspects of, T86
Alexander, Leo, D92
the suppression of the clonic phase in electrically induced convulsions in man, *169
Alpers, Bernard J., see Madow, Leo, *137
Amaurotic idiocy, atypical, Haller-vorden-Spatz disease associated with, *4
American Association of Neuropathologists, annual meeting, Atlantic City, N. J., T83
Announcements, 98, 211, 341, 444
Ariel, Irving M., see Pack, George T., *235
Arterial anastomoses of the human brain and their importance in the delimitation of human brain infarction, T91
Astrocytoma of fifteen years' duration. A case report, *409
Aszkanazy, B. A., sarcoidosis of the central nervous system, *392
Ataxia, feline trunkal, associated with degeneration of cerebellar cortex and roof nuclei, *421

BAIRD, H. W., see Kemberling, S. R., *184
Ballism and related hyperkinesia, graphic study of, *300
Bertrand, Claude, diffusion and absorption within the brain. An experimental study with Prussian blue and India ink in rabbits and cats, *53
Bezer, Ada E., T84
Book reviews, 95, 209, 340, 443
Brain diffusion and absorption within. An experimental study with Prussian blue and India ink in rabbits and cats, *53
human arterial anastomoses of, and their importance in delimitation of human brain infarction, T91
stem hemorrhages secondary to supratentorial space-taking lesions, *267
tumor and syringomyelia. Dissimilar lesions of the nervous system, *79
Browder, Jefferson, see Kaplan, Harry A., *116
Browne, Kenneth M., see Walker, Earl A., *103

CARCINOMA, metastatic, cerebral vascular complications of, *137
Carpenter, Malcolm B., feline trunkal ataxia associated with degeneration of cerebellar cortex and roof nuclei, *421
Cassel, Chester, see Winkelman, N. William, Jr., *149
Cellular reactions, degree and extent of, radon implantation in medulla oblongata of the dog: effects on, *429
Central nervous system, sarcoidosis of the, *392
Cerebellar hypoplasia and degeneration in a family of Airdale dogs, *324
cortex and roof nuclei, degeneration of, associated with feline trunkal ataxia, *421
Cerebral edema, and cerebral swelling, *192
hemorrhage in hyperergic angiopathy, D90
swelling and cerebral edema, *192
vascular complications of metastatic carcinoma, *137
Clonic phase, suppression of the, in electrically induced convulsions in man, *169
Cohen, Maynard M., fatality following the use of intrathecal penicillin. Case report, *335
Coma, hypoglycemic, delayed pathologic manifestations of, *317
Complications, cerebral vascular, of metastatic carcinoma, *137
Convulsions, electrically induced in man, the suppression of the clonic phase in, *169
Cooper, T. J., see Cross, K. R., *200
Cordy, D. R., and H. H. Snelbaker, cerebellar hypoplasia and degeneration in a family of Airdale dogs, *324
Corsentino, B., T87
Cortisone, the effect of, in activating trypanosomal encephalitis and myocarditis in rhesus monkeys, T84
Cortone acetate treatment, allergic encephalomyelitis during and following, T86

Craniopagus (acrocephalus pagus): clinical and pneumoencephalographic observations with anatomical and developmental correlation, T85
Cross, K. R., and T. J. Cooper, intracranial neoplasms with extracranial metastases. Report of two cases, *200
Cysts (perineurial) of the sacral nerve roots: another cause of the sciatic or sacral cauda equina syndrome, T88

DEGENERATING thalamo-cortical connections, silver studies of, *44
Degeneration and hypoplasia, cerebellar, in a family of Airdale dogs, *324
hepato-cerebral, a special type, *401
of the cerebellar cortex and roof nuclei, feline trunkal ataxia, associated with, *421
Delayed pathologic manifestations of hypoglycemic coma, *317
Denny-Brown, Derek E., D83, D84
Diffusion and absorption within the brain. An experimental study with Prussian blue and India ink in rabbits and cats, *53
Disease, Hallervorden-Spatz, associated with atypical amaurotic family idiocy, *4
Disease, Wilson's, two types of, hepatolenticular degeneration, case reports, *19
Dissimilar lesions of the nervous system: brain tumor and syringomyelia, *79
Dog, medulla oblongata, radon implantation in: effects on the degree and extent of cellular reactions, *429
Dogs, Airdale, cerebellar hypoplasia and degeneration in a family of, *324

EDEMA, cerebral, and cerebral swelling, *192
Effect of different sized emboli on the vascular system and parenchyma of the brain, *280
Electrically induced convulsions in man, the suppression of the clonic phase in, *169
Emboli, the effect of different sized, on the vascular system and parenchyma of the brain, *280
Encephalomalacia, multilocular. Case report, *62
Epidermoid, multiple cysts of the leptomeninges associated with a chromophobe adenoma of the pituitary, *329
Experimental study, an, with Prussian blue and India ink in rabbits and cats. Diffusion and absorption within the brain, *53
, an, of post mortem alterations in neurons of the central nervous system, *69
, an. Hemorrhagic cerebral infarction by arterial occlusion, *34
torticollis of rhombencephalic origin, *184
Extracranial metastases, intracranial neoplasms with. Report of two cases, *200
metastases, intracranial tumors with *149

FATALITY following the use of intrathecal penicillin. Case report, *335
Feline trunkal ataxia associated with degeneration of the cerebellar cortex and roof nuclei, *421
Ferraro, A., T86
Ferreira, A. Vaz, silver studies of degenerating thalamo-cortical connections, *44
Fisher, M., T91
Foley, J. M., D83
Freid, J. R., T87

GLIOMA, experimentally induced, the effect of single doses of x-ray on, T87
Globus, Joseph H., George B. Hassin—a tribute to his memory, *1
, Wang, S. C., and Maibach, H. I., radon implantation in the medulla oblongata of the dog: effects on the degree and extent of cellular reactions, *429
Graf, C. J., D89
Graphic study of ballism and related hyperkinesia, *300

HAIN, Raymond F., see Swank, Roy, L., *280
, Westhaysen, Peter N., and Swank, Roy L., hemorrhagic cerebral infarction by arterial occlusion, *34
Hallervorden-Spatz disease associated with atypical amaurotic family idocy, *4
Hart, Joseph C., see Kaplan, Harry A., *116
Hassin, G. B., T83
a tribute to his memory, *1
Hemangiomas of the fourth ventricle, *103
Hemorrhages, brain stem, secondary to supratentorial space-taking lesions, *267
Hemorrhagic cerebral infarction by arterial occlusion. An experimental study, *34
Hepatocerebral degeneration, a special type, *401
lenticular degeneration, two types of Wilson's disease, case reports, *19
Hicks, S. F., see Poppen, James L., *267
Hiller, F., T90, D93
Histologic character and origin of peripheral tumors in v. Recklinghausen's disease, *257
Histological studies of muscle tissue in neuro-muscular disease, *373
Horning, E. Douglas, see Pack, George T., *235
Hyperkinesia, the graphic study of ballism and related, *300
Hypoglycemic coma, delayed pathologic manifestations of, *317
Hypothermia associated with a mesencephalic lesion, *116

IDIOCY, amaurotic family, atypical, Hallervorden-Spatz disease associated with, *4
Infarction, cerebral, hemorrhagic, by arterial occlusion. An experimental study, *34
Inose, Tadashi, hepatocerebral degeneration, a special type, *401
Intracranial neoplasms with extracranial metastases. Report of two cases, *200
primary sarcoma; report of 9 cases with suggested classification, *215
tumors with extracranial metastases, *149
